To Whom It May Concern,

We highly recommend The ASI Group for the integration of digital dentistry into the office. Our office recently switched software and incorporated digital radiography into an existing practice. Several design issues came into play due to our existing building, and ASI delivered a unique solution for each.

ASI also handles our maintenance and daily backup of patient information and accounts. C.J. and his team are very professional and have provided our office with the attention and detail we require. I look forward to a long term relationship with ASI and feel if you would like your dental practice to move forward with "The Digital Age of Dentistry" you must consult with ASI. Do not hesitate to contact me if you have any questions.

Regards!
